Allowable Subject Matter

3. Claims 1-26 are allowed.
4. The following is an Examiner's Statement of Reasons for Allowance:

Art Unit: 2626

a. Claims 1-21 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an apparatus or method for incremental printing of an image comprising means for or step of adding further colorant quanta to selected pixels already receiving colorant as part of the less-than-full coverage within the region whereby, within the region, the amount of colorant printed in some pixels is zero, in others is a first non-zero number of colorant quanta, and in still others is a second non-zero number of colorant quanta, wherein the second non-zero number is different from the first non-zero number.

b. Claims 22-26 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a method of adding colorant in a region to which color is already addressed, in incremental printing of an image comprising the step of eliminating or reducing white-line or light-line banding in a region of the image wherein the eliminating or reducing step comprising the steps of automatically printing the region of the image with an added-colorant pixels included at a ratio of number of added-colorant pixels to total number of addressed pixels.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2626
